PROGRAM MANAGER • PRODUCTION OPERATIONS & SAP/ERP • DATA-DRIVEN PROCESS IMPROVEMENT

PROFESSIONAL SUMMARY

Program manager with 3+ years at Accenture delivering SAP/ERP system improvements and data-driven process initiatives across cross-functional supply chain, engineering, operations and quality teams along with an M.S. in Engineering Management from UMass Amherst. Owned program life-cycles end-to-end handling scope, schedule, budget and risk including a \$250M expansion and a new-product-line introduction, raising system efficiency 15% and reducing operational cost 27%. Pairs hands-on SAP S/4HANA configuration and P1/P2 ERP troubleshooting with a Production Engineering foundation that bridges digital systems and physical production processes, and communicates results to senior leadership through regular business reviews.

CORE COMPETENCIES

Program & Process Delivery: End-to-end program life-cycle ownership, scope/schedule/budget & risk management, process improvement using data & metrics, new product introduction (NPI), business reviews & senior-leadership escalation

ERP & Production Systems: SAP S/4HANA (SD/MM/WM/TSW) configuration & troubleshooting, P1/P2 incident & problem management, integration (CPI/PI-PO/IDoc), availability-check / backorder & inventory processes

Data & Tooling: SQL, Excel (Pivot Tables, VLOOKUP), Python process-mining, Power BI, Tableau, SAP Analytics Cloud; Agile/Scrum, Jira, Confluence, MS Project, ServiceNow

Operations & Supply Chain: Inventory management (DDMRP/MRP), demand-supply alignment, bottleneck & operational-waste reduction, critical-path analysis; Production Engineering foundation (digital + physical processes)

PROFESSIONAL EXPERIENCE

SAP Functional Consultant — Program / Project Delivery | Accenture

Jul 2021 – Aug 2024

- Defined and delivered process-improvement initiatives across a 16-project portfolio using data and metrics running feasibility, impact and root-cause analyses to prioritize by business value raising system efficiency 15% and reducing operational cost 27%.
- Owned SAP S/4HANA system improvements and break-fix end to end, configuring SD/MM/WM/TSW flows and driving P1/P2 ERP incidents to root-cause closure with preventive SOPs minimizing downtime and sustaining uninterrupted operations.
- Owned end-to-end delivery of a \$250M expansion and a new-product-line introduction — scope, schedule, budget and risk from conception to completion and communicating status and escalations to senior leadership through regular business reviews.
- Directed the ECC-to-S/4HANA migration workstream along with current-to-future-state design, integration and cutover with hyper-care SOPs stabilizing go-live and cutting operational cost 18%.
- Coordinated 8 concurrent cross-functional workstreams spanning business, engineering, integration and operations teams, establishing shared design specs and a SIT/UAT/RT cadence in Jira to keep scope and schedule under control.
- Optimized availability checks and backorder handling and built SAP Analytics Cloud / SQL dashboards that translated supply-chain and operations KPIs into prioritized actions, giving stakeholders the data to manage inventory and cut fulfillment delays.

Supply Chain Intern | Hydac Private Limited

Jan 2021 – Apr 2021

- Built a KPI-driven supply-chain dashboard (est. 57% efficiency gain) using Structural Equation Modeling and applied DDMRP to improve forecast accuracy, align inventory to real-time demand and reduce production bottlenecks.

Digital Marketing Intern | Zoho Corporation

Apr 2021 – Jul 2021

- Analyzed real-time engagement metrics and ran SEO/SEM and A/B-testing initiatives that lifted SERP rankings and improved conversion for Zoho's B2B SaaS products.

KEY PROJECTS

- Process-Mining & Bottleneck Analyzer:** Python pipeline mapping the as-is order-to-cash process and quantifying delays from backorders, credit blocks and compliance holds surfacing the top controllable bottlenecks to drive prioritization.
- Operations Cockpit (SAP Fiori / SAPUI5):** Master-detail web cockpit visualizing each order's journey and surfacing credit blocks, ATP/backorder flags and partial-availability sourcing gaps for faster operational decisions.
- UMass Transit Infrastructure & Smart Trash:** Built a KPI-driven roadmap and project-managed scope, schedule, cost and risk in MS Project.

EDUCATION

M.S., Engineering Management — University of Massachusetts Amherst

GPA 3.7/4.0 | May 2026

B.E., Production Engineering — PSG College of Technology

GPA 8.3/10.0 | May 2021

LEADERSHIP & RECOGNITION

- Recognized by client and Accenture leadership as a top performer for delivery consistency.
- Graduate Certificate in Engineering Project Management & Leadership (PML), UMass Amherst.
- Promoted to Student Supervisor, UMass Auxiliary Enterprises.
- Student Chairperson, Dept. of Production Engineering, PSG College of Technology.
