SAP CX SALES CLOUD (C4C) CONSULTANT • SALES & SERVICE • LEAD-TO-CASH & SAP SD

SUMMARY

SAP CX Sales Cloud (C4C) consultant with 3 years at Accenture and a master's in Engineering Management, who owns the CRM module inside lead-to-cash and takes Sales Cloud work from requirements through configuration, testing and hypercare. Across 3 S/4HANA implementations I designed lead, opportunity, quote and contract flows and integrated them with SAP SD, cutting technology cost 27%, raising user adoption 17% and reducing operating cost 18%.

EDUCATION

M.S., Engineering Management | University of Massachusetts Amherst
(Graduate Certificate, Engineering Project Management & Leadership)

GPA: 3.7/4.0 | May 2026

B.E., Production Engineering | PSG College of Technology

GPA: 8.3/10.0 | May 2021

EXPERIENCE

SAP CX Sales Cloud Consultant | Accenture

Jul 2021 – Aug 2024

- Owned the SAP CX Sales Cloud (C4C) module within lead-to-cash across 3 S/4HANA implementations for a global mining organization, covering a \$250M geographic expansion and a \$200M new product line in 90+ countries.
- Configured lead, opportunity, quotation and contract flows with approval routing and status automation, removing manual handoffs between sales and order management and raising user adoption of the new selling process 17%.
- Built MDG governance workflows for lead-to-customer creation and harmonized customer, material and pricing master data across regions, resolving discrepancies at their source and lifting measured process performance 13%.
- Integrated Sales Cloud with S/4HANA through SAP CPI, PI/PO and IDoc interfaces across a 3-system landscape, monitoring replication and resolving the pricing and availability errors sitting behind failed quotes, orders and deliveries.
- Translated business requirements into functional specifications for deliverables of varying size and drove 24 enhancement projects to closure, 16 of them in order-to-cash, cutting technology cost 27% across the enhancement portfolio.
- Supported Service processes through service request and case handling and day-to-day P1 and P2 resolution, and delivered training, user guides and hypercare SOPs that reduced operating cost 18% across a \$30M portfolio.

Supply Chain Intern | Hydac

Jan 2021 – Apr 2021

- Built a KPI dashboard for a hydraulics manufacturing plant measuring assembly unit efficiency at 57% and applied Structural Equation Modeling to map the efficiency drivers across supplier, manufacturing and distribution functions.
- Proposed a Demand-Driven MRP inventory model and a phased roadmap targeting 70% efficiency in three quarters.

KEY PROJECTS

- Order-to-Cash Process Mining (synthetic data):** Built a process mining pipeline with LLM-assisted engineering on an order-to-cash log of 18,181 events across 1,800 orders, reconstructing the as-is process to find where cycle time was lost. Ranked backorders at 18.6% ahead of credit and compliance holds, recommending process automation changes.
- Order Status Cockpit (SAP Fiori):** Built an SAP Fiori and SAPUI5 master-detail application that follows each sales order through order-to-cash, from credit check and availability to delivery and billing, flagging exceptions so customer service can see order status without a system escalation. Designed for the digital transformation of a manual status-check process.

CORE COMPETENCIES

- SAP CX Sales Cloud (C4C):** C4C V1 unified platform, lead and opportunity management, quotation and contract flows, account, contact and customer data, service request and case handling, approval workflow and status-flow configuration, territory and pipeline visibility, sales process automation, and CRM adoption and engagement reporting for leadership.
- SAP SD & Order-to-Cash:** Sales order processing, pricing and condition technique, delivery and billing, returns, credit and availability check, customer and material master, S/4HANA and ECC, business process automation.
- Integration & Data:** SAP CPI and PI/PO, EDI and IDocs, Sales Cloud to S/4HANA replication, middleware monitoring and error handling, MDG master data governance, SAP Fiori and SAPUI5, system testing and troubleshooting.
- Delivery & Support:** Requirements and fit-gap workshops, functional specifications, current and future-state process documentation, SIT and UAT, defect triage, cutover, hypercare and P1/P2 support, end-user training, user guides and SOPs, Power BI, Tableau and SAP Analytics Cloud, and GenAI tools (Claude, ChatGPT) with response validation.

LEADERSHIP & RECOGNITION

- Recognized by client and Accenture leadership as a top performer for delivery consistency across 3 years.
- Promoted to Student Supervisor at UMass, running 15+ staff per shift across 7 stations serving 7,000+ customers a day.
- Led the student board as Chairperson for 500+ students, Department of Production Engineering, PSG College of Technology.
- Certifications: Career Essentials in Project Management (Microsoft/LinkedIn), Successful Negotiation, AI for Everyone.
