SAP FUNCTIONAL CONSULTANT • SAP SD / ORDER-TO-CASH (OTC) • SAP CX SALES CLOUD

SUMMARY

SAP functional consultant with 3+ years at Accenture with an M.S. in Engineering Management delivering SAP SD / Order-to-Cash, CX Sales Cloud (C4C/Hybris), and S/4HANA implementations and enhancements for global enterprises, enabled with hands-on expertise across configuration, full-lifecycle implementation and end-to-end testing.

EDUCATION

M.S., Engineering Management — University of Massachusetts Amherst
(Graduate Certificate, Engineering Project Management & Leadership)

GPA: 3.7/4.0 | May 2026

B.E., Production Engineering — PSG College of Technology

GPA: 8.3/10.0 | May 2021

EXPERIENCE

SAP Functional Consultant | Accenture

Jul 2021 – Aug 2024

- Configured SAP SD / Order-to-Cash (OTC) end to end for a global mining enterprise, establishing sales quotes, pricing & condition technique, sales order and contract management and streamlining complex billing & invoicing workflows.
- Led the SAP CX Sales Cloud (C4C/Hybris) workstream of a full ECC-to-S/4HANA migration, directing cross-functional teams on current-to-future-state design, configuration, integration and cutover and authoring hyper-care SOPs to stabilize post go-live that cut operational costs 18%.
- Delivered 3 full-lifecycle S/4HANA implementations: a merger, a new product line, and a \$250M business expansion, owning scope, schedule, and budget while driving change management, stakeholder alignment, and impact assessments through go-live.
- Executed 16 enhancement projects across SAP SD, CX Sales Cloud, CTRM, and MDM using Agile delivery, business process assessment and feasibility/risk analysis, optimizing workflows to raise system efficiency 15% and reduce operational costs 27%.
- Managed 8 cross-functional enhancement projects spanning SAP SCM, MM, GTS, Commerce, MDG, HCM, TSW, and WM, optimizing availability checks (backorders), delivery & shipping/fulfillment, integrating using IDoc, middleware (SAP CPI, PI/PO) and Snowflake, and building SAC dashboards for supply-chain and pre-sales analytics.
- Owned the system validation lifecycle by authoring high-level design (HLD), functional specifications (FS), test scripts and executing SIT/UAT/RT and governed defect-free transport (TR) and patch movements across on-premises and cloud landscapes.
- Documented standardized workflows and SOPs for post-deployment hyper-care, ensuring consistent, repeatable processes and coached juniors and cross-functional teams ensuring smooth knowledge transfer across delivery teams.

Digital Marketing Intern | Zoho Corporation

Apr 2021 – Jul 2021

- Analyzed real-time user-engagement and web metrics to surface behavioral trends and optimize targeted B2B SaaS campaigns, improving user conversion rates.
- Executed SEO/SEM strategies (keyword research, A/B testing, on-page optimization) that lifted SERP rankings and grew organic traffic for Zoho's SaaS products.

Supply Chain Intern | Hydac Private Limited

Jan 2021 – Apr 2021

- Built a tailored KPI-driven supply-chain dashboard (estimated 57% overall supply chain efficiency), applying Structural Equation Modeling (SEM) to identify the critical path and enhance operational visibility.
- Applied Demand-Driven MRP (DDMRP) strategies to improve forecasting accuracy and align inventory with real-time demand and recommended process optimizations to reduce bottlenecks and improve responsiveness.

KEY PROJECTS

- OTC Process Mining & Bottleneck Analyzer:** Built a Python process-mining pipeline on a synthetic Order-to-Cash log to map the as-is process and quantify delays, surfacing backorders, credit blocks, and export-compliance holds as the top bottlenecks.
- OTC Order Cockpit:** Built an SAP Fiori/SAPUI5 master-detail cockpit that visualizes each sales order's Order-to-Cash journey, surfacing credit blocks, ATP/backorder flags, and partial-availability sourcing gaps across orders.
- UMass Transit Infrastructure (WarmStop):** Built the product vision, go-to-market strategy, and KPI-driven roadmap for a winter transit-seating product, with market sizing (30,000+ commuters; ~\$1.1M five-year path) and SWOT / PESTLE analysis. Defined the business case, success metrics (bench utilization <10% to >60%), and a phased plan scaling a \$10K pilot toward regional rollout.
- Smart Trash System:** Project-managed the end-to-end plan for an IoT bin-monitoring system in MS Project, building the work breakdown structure, a \$246K cost estimate (15% contingency), and a Gantt schedule across a 136-day timeline. Ran critical-path analysis (99-day path) and schedule-recovery and risk-mitigation strategies and coordinating stakeholders.

TECHNICAL SKILLS

Core SAP Modules: SAP SD (Order-to-Cash), SAP CX Sales Cloud (C4C / Hybris CRM), SAP CTRM, SAP S/4HANA

Cross-Functional SAP: SAP SCM, GTS, MDM, MDG, HCM, WM, TSW, SAP Analytics Cloud (SAC), SAP Fiori, SAP MM

Integration & Data: SAP CPI, SAP PI/PO, IDoc/EDI, Snowflake, SQL, Python, Power BI, Tableau

Delivery & Tooling: SIT/UAT/RT testing, defect tracking, transport (TR) management, Agile/Scrum, Jira, ServiceNow, MS SharePoint

LEADERSHIP, CERTIFICATIONS & ACTIVITIES

- Recognized by client and Accenture leadership as a top performer for delivery consistency and dedication.
- Graduate Certificate in Engineering Project Management & Leadership (PML) — University of Massachusetts Amherst.
- Promoted to Student Supervisor by UMass Auxiliary Enterprises for reliability, collaboration, and leadership.
- Student Chairperson, Department of Production Engineering, PSG College of Technology — led the student board.
